※1 Monthly payment usage plans are until the end of the fiscal year, at longest. Users may cancel the contract during the fiscal year.

※2 For monthly payment, even if the application is at the end of the month, payment will be calculated beginning with the month of the application.

※3 We will save data for one month after use is terminated. If you wish to have access to the data for longer, you must pay for an additional disk.

※4 Users of any course may apply for an additional home disk and an additional archive disk.

※5 An exclusive queue will be created and the shared queue deleted when users apply for a course. The number of slots in the shared queue is the same as the maximum number in the case of no exclusive use.

※6 An exclusive queue is a queue that can be used exclusively by the applicant. If no jobs are entered by the applicant, other users' jobs are entered, and the queue is treated as a shared queue. When it is being used as a shared queue and the applicant enters a job, other users' jobs are rescheduled to

※7 A shared queue is a queue which sorts job execution sequence by order of lowest CPU usage over the past week. When many users are using the system at the same time, we cannot guarantee job execution start time.

※8 One group can only contract one course.

※9 "Number of slots and memories of available Univa Grid Engine queues" are shared with all Free users.
